description:

Great apartment of 105 meters with storage room and solarium. In very good condition and ready to move into. As soon as we enter the building we find a luxury, beautiful and clean goal that gives access to a large community pool and a large community room for celebrations. The apartment is large and elegant, it has three double bedrooms, two full bathrooms, one of them en suite with a shower. It has a very nice kitchen for cooking with a mid-day orientation to which a lot of light enters through a small laundry room. Its large rectangular living room gives a feeling of spaciousness and light. The apartment has very little use, the wooden floors and doors are in perfect condition, the walls would need a light coat of paint to put everyone at ease and erase the small marks of use. It has hot and cold air conditioning throughout the house through ducts with which you can control the temperature of the house at the touch of a button, which turns the house into a cozy and comfortable home. The double bedroom with bathroom en suite and fully fitted wardrobe is really spacious and very bright. The house is located in the area of the Antonio Sequeros Institute. Be the first to visit as this is a great opportunity at a fantastic price. Book a visit with us.
